100-5745-199

August 10, 1962
BY COURIER SERVICE

Honorable P. Kenneth O'Donnell
Special Assistant to the President
The White House
Washington, D. C.

My dear Mr. O'Donnell:

Governor Luis Munoz Marin on August 6, 1962, in conversation with a Special Agent of this Bureau commented that the possibility exists that members of the Puerto Rican independence movement might take some violent action against President Kennedy in order to demonstrate their opposition to the plebiscite vote which will take place in Puerto Rico in the near future. Governor Munoz said that members of the independence movement may attempt to take any action which conceivably serve to dissuade the majority of the voters in Puerto Rico from their desire for continued commonwealth status.

Governor Munoz said, however, that he had no information which indicated that such action would occur.

Governor Munoz said that, because of the violence which was directed against former President Truman during 1950 at the time this commonwealth status was secured by Puerto Rico, vigilance with regard to President Kennedy's safety should be increased.

This information has been furnished to the Attorney General and to the United States Secret Service.

Sincerely yours,

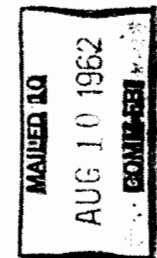

J. EDGAR HOOVER

For the information of the Bureau, on the evening of 8/6/62 I called on LUIS MUNOZ MARIN, Governor of Puerto Rico, at his invitation and had an approximately 45-minute conversation with him in his residence at La Fortaleza. This was my first opportunity to meet Governor MUNOZ since he was on an extended trip to Europe and the United States at the time of my arrival in San Juan. He was very cordial to me, and promised the 100% cooperation of the Police of Puerto Rico and of his office with the office of the FBI in San Juan. He indicated great admiration for the "professional" attitude of the FBI and its representatives.

Governor MUNOZ advised that he was particularly anxious to meet with me on 8/6/62 because he desired some concrete information regarding the bomb explosion which occurred in Mayaguez, Puerto Rico, on 8/2/62, which took the lives of two persons and seriously injured three others, all of whom were well known as persons of strong "independentist" sympathies. He stated that he had attempted on 8/6/62 to get in touch with RAMON TORRES BRASCHI, Superintendent of the POPR, in order to get a "briefing" on the situation, but had been unable to do so.

I briefed Governor MUNOZ in detail on the facts concerning the explosion, as known to this office, and of the history of the individuals injured in the explosion which occurred when these individuals were in the process of manufacturing an explosive device. Governor MUNOZ was very appreciative of this information and was extremely interested in it.

He stated that he is very concerned over the possibility that members of the "independentist" movement, such as members of the Nationalist Party of Puerto Rico (NPPR) and of the Accion Patriotica Unitaria (Patriotic Unitarian Action) (APU), will begin a program of more "aggressive action" in an effort to disrupt the plebiscite vote, which will be held in Puerto Rico.

*Memorandum to R6

within the next few months for the purpose of permitting the people of Puerto Rico to express their desires as to the continuation of the commonwealth status, statehood, or complete independence for Puerto Rico. He stated that members of these movements are fully aware of the fact that they can command no more than 5% of the popular vote in Puerto Rico as being in favor of complete independence for Puerto Rico and that, knowing this, they will probably attempt to take any action possible which will prevent the majority of people in Puerto Rico from expressing their preference for commonwealth status. Governor MUNOZ was very emphatic in his feelings that this latter status is the desire of the overwhelming number of persons in Puerto Rico. Governor MUNOZ also stated in connection with this that he sincerely hoped that the proper agency of the United States Government, referring to the Secret Service, would be most alert in its vigilance of President KENNEDY during the next few months in view of the fact that the possibility exists that the members of the "independentist" movement would attempt to take some action against him of a violent nature in order to demonstrate their opposition to the plebiscite vote and to attempt to disrupt it. He stated that he had no information indicating that such action would be taken by members of the "independentist" movement, but he felt that the Secret Service should be fully aware of this possibility and increase their vigilance over the President, particularly in view of the attempted violence on President TRUMAN which took place in 1950 on the part of members of the NPPR at the time commonwealth status was secured by Puerto Rico.

These thoughts of Governor MUNOZ concerning the possibility of violence against the President are being submitted to the Bureau in a separate communication enclosing a letterhead memorandum suitable for dissemination.

Governor MUNOZ stated that he hoped that the POPR would take more "aggressive action" against the leaders of the independentist movement in Puerto Rico, and indicated that he felt that this course of action was necessary in view of the indications that members of this movement were going to become more "aggressive" themselves during the next few months. He stated that he would be more than willing to insure that additional personnel were secured for the POPR if such would

SJ 80-140

be necessary to assist them in adopting a more "aggressive attitude" toward members of the "independentist" groups.

Governor MUNOZ also requested information as to the present whereabouts of JUAN ANTONIO CORRETJER, the leader of the APU and a violent Nationalist. I informed the Governor that CORRETJER was presently in New York City and that we had received information to the effect that he would be returning to Puerto Rico on 8/8/62. Governor MUNOZ was appreciative of this information and, although he did not so state, it appeared that he thought the return of CORRETJER to Puerto Rico might be the triggering factor in the stepping up of the activities of the "independentist" movement.

During this conversation Governor MUNOZ also made some comments concerning Congressman ADAM CLAYTON POWELL which I thought the Bureau might be interested in receiving. The Governor stated that he regards POWELL as completely "immoral" and that his ambition is of a reckless type. He stated he regards POWELL as "immoral" because he feels that POWELL would do anything or say anything which POWELL thought would result in benefit or publicity for POWELL, regardless of the consequences of his actions or the truth of anything which he might say. He also stated he thought it very unfortunate that a man of POWELL's caliber should be the chairman of such an important committee in Congress as that of the Education Committee. It is to be noted, of course, that there is no love lost between the Governor or Congressman POWELL, and Congressman POWELL has been very critical in recent weeks of Governor MUNOZ in the public press.

As stated above, my reception by and conversation with Governor MUNOZ was most pleasant and I feel that his promise of 100% cooperation with the FBI by both his office and the POPR is a sincere one. I also gained the impression from my conversation with him that he is deeply concerned over the possibility of some violence of some nature occurring in Puerto Rico on the part of some members of the independentist movement which would disrupt or be a disruptive influence on the plebiscite vote.

Re San Juan letter to Bureau 8/30/62 captioned
as in the first caption set forth above.

For the information of the Bureau, at the request of
Governor LOUIS HENRI MARIN I visited him in his residence at
La Fortaleza on the evening of 9/4/62.

Governor MARIN advised that he wished to talk to me
concerning the situation of the government owned radio and TV
station WJPR, San Juan, the details of which are set forth in
re San Juan letter to Bureau 8/30/62, inasmuch as he was quite
concerned about the articles which had appeared in the San Juan
newspaper "El Mundo" concerning possible employment in these
stations of "Communists" or other "subversives". Governor MARIN
stated that he feels "El Mundo" is attempting to begin a "witch
hunt" at WJPR for the purpose of discrediting Governor MARIN's
administration of Puerto Rico. He stated he has been informed
by Superintendent RICHARD THOMAS WILSON, Police of Puerto Rico,
and the Secretary of the Department of the Interior of Puerto Rico,
that WJPR does not have on its payroll any persons known to be
"Communists" or to be affiliated with any organizations advocating
independence for Puerto Rico through the use of violence. He
stated that he requested the San Juan news of the employees
of WJPR, being advised, however, that the San Juan news will have a
"balanced" viewpoint and not give undue emphasis of Puerto
Rico from the United States. He stated that he was not
convinced that the government owned radio and TV station WJPR

views are not reflected in subversive activities on the part of employees or so long as those who favor independence for Puerto Rico do not advocate or affiliate themselves with groups which advocate the securing of this independence through the means of violence.

b7c Governor MUNOZ stated that he wanted me to inform him whether or not the FBI was presently conducting any investigation of WIPR as such or any investigation concerning employees at either the radio or TV station. I informed him that the FBI was conducting no investigations at this time along these lines whatsoever. I also informed him that this office had not conducted any investigations in the past, as far as our files would indicate, of employees of either radio station or TV station WIPR on the basis of alleged subversive or Communist activities on the part of any such employee. I told him that a review of our files did indicate, however, that in April, 1962, this office conducted an investigation of one [redacted] who at that time was an employee of the [redacted] of the Commonwealth of Puerto Rico, and [redacted] had been an employee of WIPR-TV. I told him, however, that this investigation was an applicant-type investigation which was made by this office as a result of [redacted] application for employment with the Voice of America as a Federal Government employee. For the information of the Bureau, the results of the San Juan investigation in that case are reflected in report of SA RICHARD E. LOGAN dated 5/1/62 at San Juan entitled [redacted] aka; VOA (USIA)" [redacted]

I also informed Governor MUNOZ that I had informed ANTONIO MIRANDA, the reporter for "El Mundo" who had written the articles concerning the alleged investigations at WIPR, that his stories were inaccurate in that the FBI was not conducting any investigation of employees at WIPR for alleged subversive or Communist activities.

Governor MUNOZ asked me if I would be willing to authorize him to have a statement issued that the FBI had "cleared" the employees at WIPR. I told him, of course, that the FBI could not issue such a statement inasmuch as we had not conducted any investigations of the employees there, and because the policy

DATE: 11/21/62

SUBJECT: LUIS MUNOZ MARIN
GOVERNOR OF PUERTO RICO

POLICE OF PUERTO RICO
POLICE COOPERATION

Enclosed herewith to Bureau are two copies of letter dated 11/20/62 which I have received from RAMON TORRES BRASCHI, Superintendent of Police of Puerto Rico. Bureau will note from Mr. TORRES BRASCHI's letter that he is inquiring into the possibility of some arrangement being worked out whereby our Legal Attache in Paris can afford cooperation to Mr. ESTEBAN PADILLA, Director of the European Branch of the Economic Development Administration, who is a former staff assistant to LUIS MUNOZ MARIN, Governor of Puerto Rico, in connection with security arrangements that must be worked out from time to time when Governor MUNOZ MARIN visits Europe, and in connection with information as to activities of particular individuals operating in Europe concerning whom the Police of Puerto Rico have an interest or desire information.

For the information of the Bureau, there is no identifiable data in San Juan indices on Mr. ESTEBAN PADILLA. In addition, Superintendent TORRES BRASCHI and the POPR have been most cooperative with this office at all times, and it would seem to me that it would be mutually advantageous for this office and for the POPR if some kind of arrangements can be worked out to assist the POPR to develop information in Europe, especially in connection with the travels to Europe of Governor MUNOZ MARIN.

It would be appreciated if the Bureau would advise me of what type of an arrangement could be worked out to assist Mr. TORRES BRASCHI with his problem so that I may bring such information to his attention. It would be appreciated if any advice or suggestions of the Bureau could be expedited.

Mr. Thomas E. Bishop
Special Agent in Charge
Federal Bureau of Investigations
San Juan, Puerto Rico

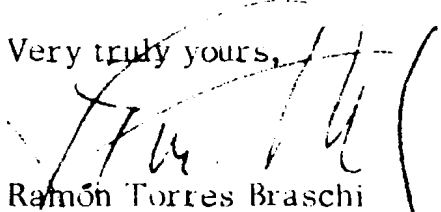

100-140

My dear Mr. Bishop:

Sometimes it is necessary for us in the Police of Puerto Rico to get in touch with the Economic Development Administration, European Branch, with headquarters in Paris, for them to make arrangements for our Governor when he has to visit Europe. As you know, most of the times he is reluctant to travel as chief of state and, therefore, the usual arrangements for this type of travel are not available. In making these arrangements consideration must be given to security matters. At other times information as to the activities of particular organizations or individuals operating in Europe is desired by us. We usually call upon Mr. Esteban Padilla, Director of the European Branch. He in turn may request help from the security officers of the United States Embassy there. I had recently an opportunity to request some information from Mr. Padilla and he said that it would help if you in turn could suggest that such help be offered him.

I would appreciate any arrangement that you can make in order to offer some help to Mr. Padilla there. Mr. Padilla, by the way, was prior to his assignment in Europe, one of the staff assistants of the Governor of Puerto Rico and is, therefore, completely trustworthy.

Very truly yours,

Ramón Torres Braschi

Reurlet 11/21/62 from the Bureau's
Office and suggestions regarding a request you have received
from Antonio Torres Bruchel, Superintendent of Police of Puerto
Rico, San Juan, Puerto Rico.

It is noted that Torres Bruchel has made inquiry
concerning the possibility of effecting such arrangement whereby
the Agent, Antonio (Lopez) in Paris, France, can afford
cooperation to Mr. Detlevs Padilla, Director of the European
Branch of the Economic Development Administration of Puerto Rico,
in connection with security arrangements for his
periodic official trips to Europe of Governor Juan Maria.
In view of the fact the FIVE have been most cooperative with
your office at all times and in the interest of assisting your
relations with this Department, the Bureau has no objection
to the Agent in Paris affording assistance to Padilla by indicating
to him the appropriate French agencies and American Embassy
officials he should contact in order to discharge his duties.

However, with regard to Torres Bruchel's request that
such arrangement be worked out to assist the FIVE in developing
information on security matters in Europe in connection with the
trips to Europe of Governor Juan Maria, it is the Bureau's
opinion that Agent, Paris, should not become involved in any
arrangements between Padilla and the French Government to obtain
information of this type. Agent, Paris, should be advised of any
planned visits to France of Governor Juan Maria in order that he
can alert his source in France to insure that all information of
interest to the FIVE will be promptly disseminated to the FIVE
by the Bureau.

Re: **LUIS MUÑOZ MARIN**

As you are aware, the Bureau has no investigative jurisdiction in France and any investigation desired by Padilla in France will have to be conducted by French authorities.

For your information Bureau files contain no identifiable information concerning Padilla on the basis of the limited available information concerning him.

For the information of Legat, Paris, Esteban Padilla, who was a former staff assistant to Governor Munoz Marin, is utilized by the POPR in connection with security arrangements that must be worked out from time to time when Governor Munoz Marin visits Europe. Padilla is also utilized to obtain information concerning the activities of particular individuals operating in Europe of interest to the POPR during these trips. If reasons exist which make contact with Padilla inadvisable, the Bureau should be advised.

NOTE ON YELLOW: The Bureau immediately disseminates to the POPR any information which would be of interest to them in connection with trips of Governor Munoz Marin both in the United States and abroad. We do not want to put Legat, Paris, in the position of acting as a middle man between Padilla and the French Government. It is believed that Legat should not become involved in any arrangements made by Padilla and French authorities or act in his behalf.

Information has been received from a confidential informant in New York who has furnished reliable information in the past that certain Puerto Rican independence advocates in New York City might attempt to create an incident of violence in connection with the Governor's current visit in the United States. The incident, if attempted, would take place either in Chicago, Illinois, or New York, New York, while the Governor is in either of these cities. No additional information is presently available concerning any proposed incident.

Local police authorities in Chicago, New York and Washington and members of Governor Munoz's Party responsible for his security are being notified of the information set out above.

COMMITTEE FOR PUERTO RICAN INDEPENDENCE, aka.,
Puerto Rican Committee, Comite Unificacion
Pro-Independencia De Puerto Rico
(Unification Committee for the Independence
of Puerto Rico)

A source advised on October 24, 1962, that during November and December, 1961, members of the Chicago Provisional Organizing Committee for a Marxist-Leninist Communist Party (POC) as part of the organization's mass work activity began a concerted campaign to promote activity among Puerto Ricans in Chicago. In its initial stages this consisted of one or two Chicago POC members of Puerto Rican extraction attending meetings sponsored by Puerto Rican groups and injecting the POC line into these activities. As a result, a small group of Puerto Ricans sympathetic to the POC line, were drawn into the POC orbit and formed the nucleus of the Committee for Puerto Rican Independence (CPRI).

The stated aim of the CPRI is to obtain independence for Puerto Rico, but it is, in fact, an agency by which the Chicago POC hopes to extend its influence among Puerto Ricans and to promote the POC line. The organization has no headquarters and meetings are held in the homes of members, with an occasional public meeting being held in a hall rented for that purpose. The CPRI is also known as the Puerto Rican Committee and the Comite Unificacion Pro-Independencia De Puerto Rico (Unification Committee for the Independence of Puerto Rico).

While the stated aim of the CPRI is to obtain independence for Puerto Rico, there is no indication that the group contemplates the use of violence in reaching its objective. Funds raised by the CPRI have been used entirely for administrative and propaganda purposes and no efforts have been made to purchase arms and/or ammunition. There are no indications that such plans are contemplated. POC leaders are using the CPRI to further POC objectives and feel that any acts of violence would defeat that purpose. The Chicago POC dominates and controls the CPRI.

PROVISIONAL ORGANIZING COMMITTEE

Source advised on July 25, 1962, that he had learned that on August 16 and 17, 1958, a national conference was held in New York City for the purpose of forming a "Provisional Organizing Committee for the Reconstitution of a Marxist-Leninist Party." This source also advised on July 25, 1962, that the Chicago POC participated in the national conference of the Marxist-Leninist Caucus of the old Party and at that time the Chicago group became affiliated with the national POC.

This same source further advised on July 25, 1962, that the Chicago POC continues as a branch of the national POC and is entirely subservient to the national POC, in that they receive and follow orders from that body and make financial contributions to it.

PROVISIONAL ORGANIZING COMMITTEE FOR A MARXIST-LENINIST COMMUNIST PARTY (POC)

The "Guide to Subversive Organizations and Publications," revised and published December 1, 1961, by the Committee on Un-American Activities, U.S. House of Representatives, Washington, D.C, states as follows on page 142 concerning the POC:

"1. Found to be 'a new Communist splinter group.' The Provisional Organizing Committee for a Marxist-Leninist Communist Party 'also known as the POC * * * was formed in August 1958 by a number of Communist Party members who were dissatisfied with the trends and policies of the party and, while within it, had referred to themselves as the Marxist-Leninist Caucus.'

" 'The leaders and participants in the Provisional Organizing Committee group had been expelled from the Communist Party on the technical charge of 'disruptive, factional, anti-party activities.'

" 'The POC group is composed largely of extreme left-wing elements from the Communist Party. Throughout the party's history, there have been contending right- and left-wing factions which, in periods of turmoil such as the party has gone through in the recent past, have fought for control. The POC elements lost out in this recent struggle within the U.S. party * * *.'

" 'The one fact that is completely clear today is that the POC group is made up of hard-core, dedicated, and extremist Communists who, despite their present differences with the Communist Party leadership, are intent upon doing all within their power to speed the achievement of the goals of international communism.'

(Committee on Un-American Activities, Annual Report for 1959, House Report 1251, February 8, 1960, pp. 69 and 70.)"

LUIS MUNOZ MARIN
GOVERNOR OF PUERTO RICO
VISIT TO UNITED STATES, JANUARY, 1963

A source advised on January 14, 1963, that he learned on January 13, 1963, that the Committee for Puerto Rican Independence (CPRI) and the Chicago area Provisional Organizing Committee for a Marxist-Leninist Communist Party (POC) held their planned demonstration in Chicago, Illinois, on January 12, 1963. The source learned that due to the extremely cold weather, only eight or nine persons appeared to take part in the demonstration. The group carried two signs favoring independence for Puerto Rico and distributed handbills in Spanish and English advocating independence. The demonstration took place between Dorchester and Woodlawn on 63rd Street, Chicago. Because only a few people were on the street as a result of the inclement weather, the demonstration was of short duration and there was no indication that anyone was receptive to the demonstration. The source advised there was no indication that Governor Munoz or his party was in the area at the time of the demonstration. There was no disturbance or interference during the demonstration.

The organizations mentioned herein are characterized hereafter.

This is to advise that Mr. ESTEBAN PADILLA, Director of the European Branch of the Economic Development Administration of Puerto Rico, contacted this office on 12/17/62. He advised that he was not particularly concerned at this time with arrangements for the security of Governor LUIS MUNOZ MARIN, of Puerto Rico, since security arrangements were made through the security office of the American Embassy at the time of the Governor's last visit to Paris and that no difficulty had been encountered.

He stated that he is presently concerned with background investigations of certain individuals employed by the Puerto Rican government. These investigations are usually referred to him by the Superintendent of Police of Puerto Rico. He requested that this office cooperate with him through its contacts with the French police in obtaining the necessary information requested by the Superintendent of Police. He furnished a specific request pertaining to one [REDACTED] a resident of Paris, currently employed as a consultant by the Puerto Rico Planning Board. A copy of Mr. PADILLA's request is enclosed for the information of the Bureau.

It appears that it would be more logical for requests such as these to be referred by the Superintendent of Police of Puerto Rico to our San Juan Office, and that office could in turn refer the request to this office through the Bureau. In this manner the request would be kept in law enforcement channels.

It is recommended that we comply with instant request and that I furnish the desired information to Mr. PADILLA. It is recommended, however, that the San Juan Office inform the Superintendent of Police of Puerto Rico that it is preferable that such requests be referred to the San Juan Office and then, through the Bureau, to this office.

The Nationalist Party of Puerto Rico (NPPR) has been designated pursuant to Executive Order 10450.

The individuals and organizations mentioned herein are characterized in the Appendix section of this memorandum.

A source, on January 6, 1963, furnished the following information:

A group of Puerto Rican independentists met Sunday afternoon, January 6, 1963, in the Bronx, New York. The group included Laura Meneses De Albizu, Juan Juarbe Juarbe, Julio Pinto Gandia, Carlos Velez, Jose Quelts and Carlos Juan Santiago.

Laura Meneses and Juarbe Juarbe told the group that they had been informed that [redacted] and others of his type have been discussing the possibility of making an attempt to create an incident of violence during the current visit to the United States of the Governor of Puerto Rico.

Meneses and Juarbe Juarbe stated that they were in the midst of delicate negotiations with the Delegations to the United Nations (UN) of several countries on the subject of independence for Puerto Rico. They claimed that they were making real progress in obtaining support of various countries for independence for Puerto Rico. They forcefully pointed out that any attempt to create an incident of violence at this time would seriously compromise their negotiations and possibly ruin their efforts to bring the question of Puerto Rican independence up for discussion in the UN.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

Pinto Gandia, Velez and Gueits complained that [redacted] and the individuals who might associate with him were irresponsible and undisciplined; they added that [redacted] and the others would accept instructions from no one, not even the older, recognized leaders of the Puerto Rican Independence Movement who had personally sacrificed so much in the past; however, Pinto Gandia, Velez and Gueits promised that they would do everything in their power to prevent any attempt to create an incident of violence at this time.

b7C
b7D The same source, on January 8, 1963, furnished the following information:

ACCION PATRIOTICA UNITARIA (APU)
(UNITARIAN PATRIOTIC ACTION)

A source advised on January 26, 1959, that the APU was formed at a meeting held in Santurce, Puerto Rico, on January 25, 1959, under the direction of RAMON MEDINA RAMIREZ, who later resigned as President of the Nationalist Party of Puerto Rico (NPPR) on May 3, 1959. This source advised on February 19, 1959, that MEDINA recently stated he plans for the APU to be backed by the NPPR and controlled by him. He said the APU will be presented to the public as a pro-independence group which favors peaceful methods for obtaining independence for Puerto Rico.

Another source advised on May 15, 1961, that RAMON MEDINA is President of the organization but that JUAN ANTONIO CORRETJER is the driving force behind the APU and is in control of all policy and organizational activity.

This source stated the purpose of the APU is to achieve independence through electoral abstention and passive resistance. According to CORRETJER, the first step is to educate the people of Puerto Rico to support electoral abstention and passive resistance will logically follow. This resistance will take the form of a massive strike in which the people will refuse to support the present government or purchase United States products.

According to the source, APU leaders do not openly advocate use of force and violence to obtain independence for Puerto Rico.

JUAN ANTONIO CORRETJER is a self-admitted former member of the NPPR and the Communist Party, United States of America, (CP, USA), and a violent independentist who has travelled throughout the Caribbean and Latin America during 1959-1960 propagandizing on behalf of Puerto Rican independence.

The NPPR has been designated pursuant to Executive Order 10450.

ACCION PATRIOTICA UNITARIA-
NEW YORK DISTRICT (APU)
(Patriotic Unitarian Action)

On April 30, 1962, a source advised that prior to the Spring of 1962, the APU in New York consisted only of one small group in Brooklyn. However, in April, 1962, with the assistance and approval of JUAN ANTONIO CORRETJER, described by the source as Secretary General of the parent APU organization in Puerto Rico, the APU in New York was enlarged and expanded by the creation of additional APU organizations in Manhattan and the Bronx, and the establishment of the APU - New York District Junta.

The APU groups in Brooklyn, Manhattan and the Bronx, which are generally referred to as sub-juntas, make up the APU New York District. Each of the sub-juntas has its own staff of officers and holds weekly meetings. However, supervision and control of the three APU sub-juntas is exercised by the New York District Junta which was organized and to which officers were elected on April 29, 1962.

CARLOS VELEZ RIECKEHOFF, whom the source described as a former leader of the Nationalist Party of Puerto Rico (NPPR) in New York, who resigned from the NPPR in April, 1962, was elected as the first president of the APU - New York District Junta.

The same source advised that the APU in New York is considered to be an affiliate of the APU in Puerto Rico, is governed by the same constitution and has the same general aims and purposes as the parent organization.

The NPPR has been designated pursuant to Executive Order 10450.

MOVIMIENTO PRO INDEPENDENCIA DE PUERTO RICO
(Puerto Rican Independence Movement)(MPIPR)

On June 20, 1960, JUAN MARI ERAS, Secretary General of the MPIPR, advised Special Agents of the FBI that this organization was formed January 11, 1959, at Mayaguez, Puerto Rico, and officially came into being at the MPIPR Constituent Convention on November 23, 1959, at Ponce, Puerto Rico. It was formed by a group of former leaders of the Partido Independentista Puertorriqueno (PIP), a former legally constituted political party, who were dissatisfied with PIP policies and decided to form a more active organization to indoctrinate the Puerto Rican people with the ideal of Puerto Rican independence.

Although the MPIPR does not advocate violence, it will accept anyone who believes in Puerto Rican Independence regardless of his beliefs on the use of violence provided he agrees with the MPIPR Declaration of Principles. The organization contains both Nationalists and Communists within its membership, but does not assume responsibility for actions they may take not sanctioned by the group.

Speaking on behalf of himself and his organization, MARI ERAS said the MPIPR does not currently advocate violence as a means of obtaining Puerto Rican independence only because he felt that violence would be ineffective against the power of the United States Government. MARI ERAS stated he believed in the right of a people, specifically the Puerto Rican people, to use violence to obtain their freedom if and when the circumstances are such they could possibly be successful in their effort.

Headquarters of the MPIPR are located at Rio Piedras, Puerto Rico, a suburb of San Juan. During 1962 issues of the MPIPR "Carta Semanal" (Weekly Letter), self-described as a weekly bulletin from MPIPR Headquarters to its various branches, repeatedly stated that the goal for 1962 was to establish an effective branch in every municipality in Puerto Rico and also in New York City.

INDEPENDENCE MOVEMENT (MPIPR)
(NEW YORK AND BROOKLYN MISSIONS)

A confidential source advised on August 15, 1961, that the New York Mission of the Movimiento Pro Independencia de Puerto Rico (MPIPR) was organized on August 6, 1961, in New York City.

A second confidential source advised on October 24, 1961, that the New York Mission of the MPIPR supports and promotes the aims and principles of the MPIPR as set forth by the headquarters of the MPIPR in Puerto Rico. The announced purpose of the MPIPR in Puerto Rico is to work for the complete independence of Puerto Rico through propaganda and other peaceful means.

JUAN MARI BRAS, Secretary General of the MPIPR, advised Special Agents of the Federal Bureau of Investigation on June 20, 1960, that the MPIPR does not advocate violence to gain independence because it would be ineffective against the force of the United States Government. MARI BRAS believes that the Puerto Rican people have a right to use violence to gain their freedom if there was a possibility of success.

The second source advised on November 20, 1961, that at a meeting of the New York Mission of the MPIPR held on November 11, 1961, it was decided to establish a second branch of the MPIPR in New York City. This branch was established in Brooklyn, New York, on November 12, 1961, to be known as "Mision Mando el Lenero."

On December 14, 1961, the second source advised that the New York Mission of the MPIPR had adopted the name "Mision Central Vito Marcantonio."

The second source advised on March 13, 1962, that the headquarters for the MPIPR in New York City is located at 152 West 91st Street.

Munoz Plans Visit Sunday

Puerto Rico Governor to Make First Trip to Milwaukee

Luis Munoz Marin, governor of Puerto Rico, will make his first visit to Milwaukee Sunday.

He will speak to members of the Puerto Rican community at 10:30 a.m. at the University of Wisconsin—Milwaukee auditorium, 3202 N. Downer av. Munoz will arrive here from Chicago. He is to be honored Saturday night by the Puerto Rican community there. Although there was a report from Puerto Rico Friday that the governor's travel plans were being kept secret, the Puerto Rican commonwealth office in Chicago denied this.

Munoz

The Associated Press reported that since an attempt on his life in 1950, Munoz was not easily accessible. It said he did not like to announce his next move more than minutes in advance. Munoz constantly switches hotels and means of transportation, the report said.

Claim Free Movement

A spokesman at the commonwealth office said Munoz had moved freely and publicly in Chicago. He said the governor announced his daily schedule in advance and was continuing to stay at the La Salle hotel. Munoz arrived in Chicago by train from Miami, Fla., Wednesday night.

Mrs. Willard Downing, 2031 E. Newberry blvd., who handles local affairs for the commonwealth office, said there was no secrecy involved in Munoz's visit here. She said the normal sheriff's escort, either a squad car or a motorcycle deputy, was arranged.

Tried to Kill President

A small extremist group has been active in Puerto Rico for years. Members of the group made an attempt on President Harry S. Truman's life in 1950 and fired shots onto the floor of congress in 1954. Two weeks ago two bombs exploded at the commonwealth office in New York city.

Munoz is expected to arrive by car from Chicago. After the meeting here he will return to Chicago for a public meeting with the Puerto Rican community there.

TUESDAY TOMFOOLERY: The Castro-inspired security for Puerto Rico's personable Gov. Luis Munoz Marin, during his stay here, was a caution. Ten of his own secret service guys, the FBI and Chicago police surrounded him. Most of the security men dined at nearby tables while Marin and party supped in the Pump room Sunday night.

VISIT OF PRESIDENT ROMULO BETANCOURT
OF VENEZUELA TO THE UNITED STATES
IN FEBRUARY, 1963
IS - VENEZUELA
(SJ 109-97)

For the information of the Bureau, on the evening of 2/17/63 I was notified that Governor LUIS MUNOZ MARIN, of Puerto Rico, would like to meet with me and Colonel SALVADOR ROIG, Acting Superintendent of Police of Puerto Rico, at 8:00 A.M. on 2/18/63, at La Fortaleza.

When I arrived at La Fortaleza I found that the meeting of the Governor was to be not only with Col. ROIG and myself, but with two other high ranking officers of the POPR, the commanding officer of the Puerto Rican National Guard, and with two representatives of the Venezuelan Government, who had arrived in Puerto Rico in advance of President ROMULO BETANCOURT of Venezuela, and who were here to check over security arrangements that had been set up for the visit of President BETANCOURT to Puerto Rico. It is noted that President BETANCOURT is to arrive at 11:00 A.M. on 2/18/63, and to depart from Puerto Rico at 8:00 A.M. on 2/19/63.

The Governor advised that he is quite concerned over the security which will be afforded President BETANCOURT while he is in Puerto Rico, pointing out that BETANCOURT is a prime target of assassination by communists, Castroite-Cubans, by pro-Trujillo forces and by other political forces throughout the world. He stated he desired to review with those present the security arrangements which had been set up for the protection of President BETANCOURT while he was in Puerto Rico. I immediately informed the Governor that the FBI had no jurisdiction with regard to affording of protection to President BETANCOURT while he was in Puerto Rico. I told the Governor, however, that the FBI was aware of the visit of President BETANCOURT and was cooperating with the POPR by furnishing any information to them which might be received or developed by the FBI bearing upon the security of President BETANCOURT while he is in Puerto Rico. I also informed the Governor that I was aware of the fact the POPR had made extensive security arrangements for protection of President BETANCOURT while in Puerto Rico. Col. ROIG and other officials of the POPR then discussed in great detail the security precautions which had been taken to protect President BETANCOURT while in Puerto Rico.

While it appeared that Governor MUNOZ was satisfied with the security arrangements effected by the POPR, I noted that he appeared to be extremely apprehensive over the possibility that some act of violence might be attempted against President BETANCOURT while in Puerto Rico. Such apprehension would be understandable, of course, since the Governor will accompany President BETANCOURT on any official functions, and visits that he makes while in Puerto Rico, and the Governor would then be as subject to an act of violence as would BETANCOURT.

It is noted that this office has already furnished to the POPR and to the Bureau information developed from informants with regard to a public meeting which is being held under the sponsorship of the MOVIMIENTO PRO INDEPENDENCIA DE PUERTO RICO (PUERTO RICAN INDEPENDENCE MOVEMENT) (MPIPR), and which will also be participated in by the FEDERACION DE UNIVERSITARIOS PRO INDEPENDENCIA (FEDERATION OF UNIVERSITY STUDENTS FOR INDEPENDENCE) (FUPI), at 4:00 P.M. in the Plaza Colon, San Juan, Puerto Rico, on 2/18/63, as a "public protest" of BETANCOURT's visit to Puerto Rico. This office has received no information, however, to date to indicate that any act of violence is being planned against President BETANCOURT.

CARMEN MIRANDA related that according to MARI BRAS, one United States Congressman hearing testimony described Puerto Rico as "a very frail, defenseless child" and the United States could not cut Puerto Rico free and "let this child go out of the house alone". MARI BRAS supposedly answered ~~that~~ the difference was that the Puerto Rican "child" was not in the United States' house but rather that the United States was in the house of the "child" (Puerto Rico).

MIRANDA continued that the unknown Congressman was very condescending and patronizing to MARI BRAS but the latter was, nevertheless, very pleased with the way he had handled his testimony. MIRANDA felt that "they" had really "smashed" Governor LUIS MUNOZ MARIN (who had also testified at these hearings on 5/16/63) and "they were not through with him yet". (The inference here being that the arguments laid forth by MARI BRAS destroyed the testimony given by Governor MUNOZ MARIN.)

MIRANDA stated that MARI BRAS, during his trip to Washington, D.C., had undoubtedly been accompanied by GABRIEL VICENTE MAURA and JOSE ANTONIO GONZALEZ GONZALEZ, MPIPR officials.

MIRANDA stated that MARI BRAS had returned to Puerto Rico, via New York, after his trip to Washington, D.C.

The above was not set forth in a letterhead memorandum since the accuracy of the information is unknown, and MIRANDA was relating the situation as seen according to JUAN MARI BRAS.

For the information of the Bureau, there has been considerable agitation in Puerto Rico for the past few months on the communism issue. The San Juan daily Spanish language newspaper "EL MUNDO" has been carrying on a campaign against various pro-independence organizations in Puerto Rico, and in many loosely reported articles has labeled these organizations as being communistic in nature. The Republican Statehood Party, which is the opposition party to that of Governor MUNOZ, has taken up the issue and it appears that the subject of "communism in government" and communism generally, will be the political issue in the 1964 elections scheduled for November. As a result of speeches made by Republican Statehood Party representatives and the newspaper articles in "El Mundo" many letters to the editors of the various newspapers have been published, and much excitement has been generated over the communism in Puerto Rico issue.

As the Bureau is also aware, the Communist Party of Puerto Rico is a very negligible organization with a total membership of only 12. There are, however, individuals with communist backgrounds and ideologies who are members of various of the pro-independence groups, particularly in the Movimiento Pro Independencia de Puerto Rico (MPIPR) and in the Federacion de Universitarios Pro Independencia (FUPI).

On 4/7/64 I was requested by Mr. LUIS LABOY, personal secretary to Governor MUNOZ, to meet with Governor MUNOZ at 6:30 P.M. on 4/8/64 at La Fortaleza. I spoke with Governor MUNOZ for 45 minutes in his residence at La Fortaleza, and on my arrival he advised me that he desired to check with me certain information which he had with regard to the status of the various pro-independence groups in Puerto Rico, and with regard to the issue

of "communism". It was obvious that Governor MUNOZ is quite irritated with what he feels is strictly a political attack against him in the form of the communism issue.

He then proceeded to review for me information which had apparently been supplied to him by the Police of Puerto Rico (POPR) as to the estimated membership of the pro-independence organizations. I was quite surprised at the accuracy of the figures which he recited to me, because they coincided most closely with this office's own knowledge as to the membership strength of these organizations. Governor MUNOZ stated, after concluding the recitation as to the membership strength of the various organizations, that he did not feel that communism, as such, represented any danger to Puerto Rico. He classified the newspaper campaign of "El Mundo" and the campaign of the Republican Statehood Party as "witch hunt". He pointed out that some people in Puerto Rico have pointed to the rise of CASTRO in Cuba as an example of how communism can take over the control of a Latin American country. He stated, however, that he feels that the situation with regard to Cuba prior to CASTRO's take-over and Puerto Rico are entirely different and distinct. He stated that CASTRO is a "product of BATISTA", and that there will never be a dictatorship like BATISTA's in Puerto Rico. He also advised that he feels the economic growth, and the strong middle class which has been engendered as a result of this economy, work against any possibility that communism can become the ideology of a large number of the Puerto Ricans. He also pointed out that the close ties of Puerto Rico with the U.S. would work against the possibility of communism ever becoming successful on the Island.

In response to his question, I advised Governor MUNOZ that I felt that his estimate of the strength of the various pro-independence groups was quite accurate. He then asked me if I felt that the FBI and the POPR had sufficient coverage on the PCP and the pro-independence groups as to be aware, generally, of their activities. I advised him that while no law enforcement agency was ever satisfied with its coverage, I knew that the POPR had excellent sources in all groups and that between the POPR and the FBI very excellent information was being developed as to the activities of the various groups.

SJ 80-140

Governor MUNOZ then asked me if I had any information to indicate that Cuba was operating any espionage agents in Puerto Rico. Not wishing to disclose our interest in the Cuban espionage network which is presently under investigation by this office, I replied by advising him that I thought it would be naive on the part of anyone to think that Cuba did not desire to have some type of espionage network in Puerto Rico. I did not, however, give any further reply to his question and in no way disclosed the investigation which we are presently conducting.

Governor MUNOZ expressed himself as being concerned on the possibility of violence or acts of terrorisms taking place in Puerto Rico, either during the forthcoming elections in November, 1964, or at the time when the Plebiscite, as yet unscheduled, takes place. He stated that he feels there is a distinct possibility that acts of terrorisms might take place in an effort on the part of some of the pro-independence groups, acting either on their own or at the inspiration of CASTRO, ~~in an effort~~ to disrupt the elections or the Plebiscite and to frighten people away from the polls. It was his feeling, however, that such planned violence would be learned about in advance by either the POPR or the FBI, and that any vandalism or violence which might succeed in taking place would be of a negligible nature. I told Governor MUNOZ that the FBI was aware of the possibility and was making every effort in cooperation with the POPR to determine information in advance of such activity taking place.

After a considerable period of discussion, most of which was on the part of the Governor, he then brought up what I feel was the real purpose of our meeting. He asked me if it would be possible for me, under the policies of the FBI, to issue a public statement to the press to the effect that communism does not represent a danger in Puerto Rico, and that the POPR and the FBI were well in control of the situation and well informed on the activities of persons of a subversive nature.

I told Governor MUNOZ that it would not be possible for me to issue such a statement. I advised him that he himself had pointed out that the issue of communism in Puerto Rico was a political maneuver and I did not feel that the FBI should take any part by issuing a statement of that nature. He stated that

SJ 80-140

he did not think that I would be willing to issue such a statement, but he desired to clarify in his own mind what our policy would be on the matter.

Governor MUNOZ has always impressed me as a master politician. It is my feeling that he believes that he and his administration are being politically hurt by the present campaign carried on by "El Mundo", and by the Republican Party, and that it could well cost his administration votes during the forthcoming election. I feel that his request to me is an indication of just how deeply he feels his political image has been injured by the campaign with regard to communism. He did, however, accept my refusal to issue such a statement in excellent spirits, and the discussion was completed in a very cordial vein.

I do not feel that any information should be given to Governor MUNOZ with regard to our investigation of the Cuban espionage network in Puerto Rico, as we have refrained from doing so far, because he would very possibly make public such information if he thought it would benefit him or his administration politically.

As an indication of just how much Governor MUNOZ is concerned about the issue of communism in Puerto Rico, I learned several days ago that he has assigned LUIS PASSALACQUA of the Puerto Rican State Department to make a study of the various pro-independence organizations in Puerto Rico, as well as the PCP, in order to furnish him with definitive information as to the numerical strength, their aims, purposes and contacts, and their effect generally on the people of Puerto Rico. It would appear that Governor MUNOZ intends to utilize this material as rebuttal material for the attacks against him by "El Mundo" and the Republican Statehood Party.

I will continue to be most circumspect in all my dealings with Governor MUNOZ, and the Bureau will continue to be advised of any contacts I have with him.

*Right as Munoz is an
expedient politician.*

Reurlet 4/9/64 concerning your contact with Governor Munoz on 4/8/64 in which the Governor asked if you would be willing to issue a statement to the effect that communism does not represent a danger in Puerto Rico.

Your action in declining to issue such a statement was correct. You should continue to be most circumspect in your dealings with Governor Munoz and you should instruct the Special Agents in your office to be most careful in contacts with Puerto Rican officials to insure that the FBI will not be drawn into any political controversy in connection with the forthcoming elections in Puerto Rico.

You will, of course, continue to cooperate with local authorities as in the past in investigations of subversion in Puerto Rico and you will continue to advise appropriate local authorities of information regarding impending acts of violence.

NOTE:

Governor Munoz of Puerto Rico asked for a conference with SAC Bishop of San Juan Office on 4/8/64. During the conference it was brought up by the Governor that the matter of communism in Puerto Rico has become a political issue in connection with the November, 1964, elections in Puerto Rico. The Governor was obviously well informed by the Police of Puerto Rico as to the current situation among the communist and independence advocates on the Island. He asked SAC Bishop if he would be willing to issue a statement to the effect that communism does not represent a danger in Puerto Rico. Bishop politely refused to make such a statement.

Reference is made to San Juan radiogram to the Bureau dated 4/27/64 entitled, "MAPA; IS-PRN", (Bufile 105-121680). This radiogram advised the Bureau of a raid conducted by the POPR on a cave at Moca, P.R., which resulted in the shooting of one member of MAPA, the capture of another and the escape of a third. As a result of this raid the POPR recovered firearms which had been hidden in the cave by members of MAPA.

On the afternoon of 4/27/64 I received a telephone call from the secretary to Governor MUNOZ requesting that I see the Governor immediately. Accordingly, I called on the Governor and talked with him for approximately 35 minutes. Upon greeting me he advised he had not been informed by the POPR of any details concerning their raid on MAPA, and that Colonel SALVADOR T. ROIG, Superintendent, POPR, was unavailable for consultation by the Governor since Colonel ROIG was in Moca leading the investigation of the POPR into the shooting. Governor MUNOZ then requested that I brief him concerning MAPA, its members and officers, and that I furnish him whatever details I could concerning the raid conducted by the POPR.

Accordingly, I furnished Governor MUNOZ a resume of the organization, activities and aims of MAPA, the identity of their officials and also furnished him what details I had concerning the raid conducted by the POPR, as well as the identity of the member who was shot and killed, the one who had been captured, and the one who escaped.

Governor MUNOZ was very appreciative of this information, and indicated to me that he had called upon me for this assistance because he was unable to get any authoritative details from the appropriate officials of the POPR.

After briefing Governor MUNOZ he again indicated to me his awareness of the fact that some of the fanatic independentist groups and individuals in Puerto Rico represented a distinct threat to the safety and well being of the President of the United States. He stated that the resistance shown by the members of MAPA when the cave occupied by them was raided by the POPR officers was an indication that some members of independentist groups in Puerto Rico had no respect whatever for authority, and he pointed out that he feels that it is a distinct possibility that some Puerto Rican imbued with a fanatic desire for independence for Puerto Rico may take advantage of the fact that the U.S. presently has no Vice-President in order to attempt to assassinate President JOHNSON. He stated he felt that President JOHNSON should be warned of this possibility and encouraged to take all security measures possible on any trips made by him.

Governor MUNOZ was advised that as far as the FBI was concerned whenever information was received by us indicating that some individual might constitute a danger to the President, the Secret Service, which have the primary responsibility for the protection of the President, was advised of the identity of this individual. Governor MUNOZ was also informed that his comments would be brought to the attention of our Headquarters so that the headquarters of Secret Service could be informed of them.

It is suggested that the Bureau may desire to bring to the attention of the head of Secret Service, Washington, D.C., the comments and feelings of Governor MUNOZ.

Honorable Walter W. Jenkins
Special Assistant to the President
The White House
Washington, D. C.

Dear Mr. Jenkins:

Early in the morning of April 27, 1964, the Police of Puerto Rico raided a cave in the mountainous area of Puerto Rico resulting in the death of one of the occupants of the cave and recovery of a small cache of arms from the cave. These arms had been secreted there by members of Movimiento Armado Puertorriqueno Autentico, a group of fanatics advocating independence for Puerto Rico.

Later that day Governor Luis Munoz Maria of Puerto Rico advised the Special Agent in Charge of our San Juan, Puerto Rico, Office that the resistance shown by members of Movimiento Armado Puertorriqueno Autentico against the Police is another indication to him that some members of independence groups in Puerto Rico have no respect for authority. He pointed out that he feels that it is a distinct possibility that some Puerto Rican imbued with a fanatic desire for independence for the Island may take advantage of the fact that the United States presently has no Vice-President in order to attempt to assassinate President Lyndon B. Johnson. Governor Munoz said he felt that the President should be warned of this possibility and encouraged to take all security measures possible on any trips made by him.

Re San Juan airtel to Bureau dated 5/20/64, and teletype dated 6/3/64, captioned as above.

Prior to Governor MUNOZ MARIN's arrival in New York City on 6/3/64, Spanish-speaking informants and sources were alerted to immediately advise Newark Office of any plans or activities of Puerto Rican Independence groups or individuals who might plan public demonstrations. The Puerto Rican parade in Jersey City, N.J., was held 6/14/64, and not attended by the Governor. On 6/4/64, arrangements were telephonically made by Newark with New York agents handling liaison with Governor MUNOZ's party to be of assistance if required. While most Puerto Rican Independence activities take place in New York City area, the Newark Division through Spanish-speaking informants and sources will remain alert to activities in the New Jersey area.
